IPS e.max

ivoclar  
vivadent®  
passion vision innovation

# Intro

Producing modern products and marketing solutions for the dental practice and laboratory team with Passion, Vision and Innovation. Ivoclar Vivadent continue to offer you great products, together with a comprehensive course calendar, helping you to produce the very best aesthetic restorations.

Darryl Muff, General Manager (UK), Ivoclar Vivadent Ltd

## How to use this Lab Finder

Registered IPS e.max laboratories are arranged into postal codes and geographical areas... just scroll to your area to find your nearest IPS e.max registered laboratories.

# Preparation

Preoperative view of the core build-up on tooth 30

Completed preparation

Try in to verify fit, marginal contacts and colour

Apply primer for 15 seconds to complete conditioning

Air-thinning reveals a shiny surface

Dispense the cement into the IPS e.max ZirCAD crown and seat to displace excess cement

Remove excess cement

Light cure and finish/polish restoration

# Cementation

## Multilink® Automix 'Easy Clean Up' Universal Adhesive Cement

Dual Cure Adhesive Universal Resin Cement

- High immediate bond strengths
- Self-etch primer
- Dual-cure cement
- Automix delivery
- Universal application

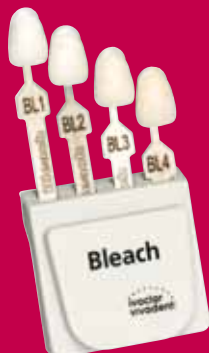

## Variolink® Veneer Esthetic Resin Cement

Light Curing Adhesive Luting Cement

- Easy clean up
- Excellent colour match
- Colour stability
- High translucency
- For ultimate aesthetic results

## New!

These four new BL Bleach Shades, BL1-BL4, are brighter and even more natural looking than their forerunners. They can be used for cases in which a brighter shade effect is desired, such as patients' requests for younger looking restorations or to match existing adjacent bleached teeth or patients with particularly light tooth shades.

Once completed it will mean that all of Ivoclar Vivadent's indirect restorative materials will utilise the same shade matching system. This will enable Clinicians to seamlessly move from one option to another, in true aesthetic harmony, whilst taking advantage of each material's unique benefits in individual clinical situations.

**For more information on services available please contact Ceramic Art Dental Studio. Or for detailed Ivoclar Vivadent product information please speak to your local Ivoclar Vivadent Product Specialist, alternatively call 0116 284 7880 or visit [www.ivoclarvivadent.co.uk](http://www.ivoclarvivadent.co.uk)**

With one of the largest research and development centres within the dental industry, Ivoclar Vivadent continue to offer you innovative products.

Clinical innovations include the new Bluephase (Generation 2) curing light, which is also the first and only curing light to offer 'Polywave' LED technology, enabling you to cure EVERY material for EVERY indication EVERY time.

Also, our Multilink Automix '**Easy Clean Up**', the self-curing luting composite with light-curing option for the adhesive cementation of indirect restorations made of metal, all-ceramics, metal ceramics and composite.

To order or book an appointment with your local Ivoclar Vivadent Product Specialist, just call!
